

ZURICH

Consultant (80% - 100%)

As part of the HCM team, you will be working on client projects to develop specific solutions in the areas of compensation, governance, leadership, and performance, as well as stakeholder management and sustainability. You will experience a high degree of project responsibility and are engaged in advising various clients.

Responsibilities:

- Manage multiple projects simultaneously with a high degree of responsibility.
- Create coherent presentations and independently conduct analyses in Excel.
- Participate in client meetings and engage directly with key stakeholders, including executives and board members.
- Independently develop customized concepts in our areas of expertise and perform solution-oriented analyses.
- Work on various marketing, teaching initiatives, and research topics.
- Have daily interactions with our senior professionals and benefit from their expertise.

Requirements:

- An above average master's or excellent bachelor's degree with a focus on finance, accounting, banking, strategy, or similar.
- High interest in working with facts and figures and developing conceptual presentations and financial analyses.
- Excellent communication and presentation skills, flexibility, and pleasure to work in teams in challenging and time-critical situations.
- Excellent oral and written German and English skills, preferably as a native speaker; French is a benefit.
- Substantial experience in working with MS Office applications, especially Excel and PowerPoint.
- Existing EU/Swiss work permit or be eligible to obtain one.

Benefits:

- Diverse Project Portfolio: Work on a variety of projects across different industries.
- Responsibility from Day One: Take on significant responsibilities from the start.
- Steep Learning Curve: Benefit from rapid professional development and learning opportunities.
- Global Network: Engage with a global network of professionals and clients.
- Central Location in Zurich: Work in our conveniently located office in Zurich.
- And many more...
